CONTENTS OF VOLUME 87

Vol. 87C, *No.* 1

Nicholas A. Mauro and Gregory W. Moore	1	Effects of environmental pH on ammonia excretion, blood pH, and oxygen uptake in fresh water crustaceans
Solange L. de Castro and Mecia M. Oliveira	5	Radioligand binding characterization of beta-adrenergic receptors in the protozoa *Trypanosoma cruzi*
Timothy G. Kingan and Akira Hishinuma	9	Transport and metabolism of L-glutamic acid by abdominal ganglia of the hawk moth, *Manduca sexta*
M. H. Depledge	15	Enhanced copper toxicity resulting from environmental stress factor synergies
D. Piomelli, A. Pinto, C. Sannino and B. Tota	21	Antagonistic actions of prostaglandins E_2 and F_2 alpha on the isolated lungs of the frog, *Rana esculenta* L.
Rex E. Martin and Manus J. Donahue	23	Correlation of myosin light chain phosphorylation and gamma aminobutyric acid receptors in *Ascaris suum* muscle
Fumio Matsumura	31	Deltamethrin-induced changes in synaptosomal transport of ^{3}H-epinephrine in the squid optic lobes
Linda A. Malizia and Godfrey Tunnicliff	37	Uptake of γ-aminobutyric acid by catfish brain
Alexandros D. Tselepis, Angelos Evangelou, Democritos Tsoukatos, Constantinos A. Demopoulos and Vassilios M. Kapoulas	41	Electrocardiographic alterations induced by AGEPC in Wistar rats in relation to its hypotensive and hematologic effects
P. B. Lobel	47	Inherent variability in the ratio of zinc to other elements in the kidney of the mussel *Mytilus edulis*
Kozo Funase, Hiroshi Takeuchi and Yasuo Ariyoshi	51	Comparison of sensitivities to *N*-β-phenylpropionyl-L-tyrosine and its derivatives of identifiable giant neurones of an African giant snail (*Achatina fulica* Férussac)
Kah Hwi Kim, Anchalee Yongsiri, Hiroshi Takeuchi, Noboru Yanaihara, Eisuke Munekata and Yasuo Ariyoshi	59	Effects of synthetic peptides on giant neurons identified in the ganglia of an African giant snail (*Achatina fulica* Férussac)—III
M. Lovas, L. Szabó, B. Matkovics and E. Fischer	63	Seasonal antioxidant enzyme changes in earthworm (*Lumbricus terrestris*) parts
M. W. Brown, D. Shurben, J. F. de L. G. Solbe, A. Cryer and J. Kay	65	Sequestration of environmental cadmium by metallothionein in the roach (*Rutilus rutilus*) and the stone loach (*Noemacheilus barbatulus*)
George M. Vaughan, Basil A. Pruitt Jr and Arthur D. Mason Jr	71	Nyctohemeral rhythm in melatonin response to isoproterenol *in vitro*: comparison of rats and Syrian hamsters
John C. Frandsen and Leon W. Bone	75	Biogenic amines and their metabolites in *Trichostrongylus colubriformis*, a nematode parasite of ruminants
Caroline M. Czarnecki, Dennis K. Olivero, Alistair S. McVey and Mark F. Pessin	79	Myocardial levels of calcium, glycogen and triglycerides in ethanol-fed turkey poults treated with allopurinol
M. Midol-Monnet, M. Heimburger, M. Davy, F. Beslot and Y. Cohen	83	Tissue distribution of acebutolol in mature normotensive and stroke-prone spontaneously hypertensive rats

Kazuo T. Suzuki, Hiroyuki Sunaga, Etsuko Kobayashi and Shigehisa Hatakeyama	87	Environmental and injected cadmium are sequestered by two major isoforms of basal copper, zinc-metallothionein in gibel (*Carassius auratus langsdorfi*) liver
J. R. Calvo, R. Goberna and J. M. Guerrero	95	Effects of fasting and refeeding on vasoactive intestinal peptide binding to rat blood mononuclear cells
Shebl M. Sherby, Mohyee E. Eldefrawi, Keith A. Wafford, David B. Sattelle and Amira T. Eldefrawi	99	Pharmacology of putative glutamate receptors from insect skeletal muscles, insect central nervous system and rat brain
Khoa Bui and Richard F. Ochillo	107	Characterization of cholinesterase of muscularis muscle of *Bufo marinus*
Francis G. Doherty, Mark L. Failla and Donald S. Cherry	113	Identification of a metallothionein-like, heavy metal binding protein in the freshwater bivalve, *Corbicula fluminea*
Stanley G. Rane and Gordon A. Wyse	121	Neuromuscular synaptic transmission in *Limulus polyphemus*—I. Actions of aspartate, glutamate and the natural transmitter
Stanley G. Rane	131	Neuromuscular synaptic transmission in *Limulus polyphemus*—II. Release of amino acid putative transmitters from the neuromuscular preparation
Kenneth M. Brown and John R. Shaver	139	Subcellular distribution of [^{3}H]serotonin binding sites in blastula, gastrula, prism and pluteus sea urchin embryos
R. Witkus, M. J. Horgan, P. Dowling, M. Klein and L. Faso	149	Comparative elemental analysis of the S and B cells of the hepatopancreas of *Armadillidium vulgare*, a terrestrial isopod
Katalin S.-Rózsa and T. L. Dyakonova	153	Modification of plasticity by FMRFamide in the identified neurons of *Helix pomatia* L.
C. Wicker	161	Effects of brain, suboesophageal ganglion and corpus cardiacum factors on juvenile hormone biosynthesis *in vitro* in *Acheta domesticus* (Orthoptera)
E. T. Clemens, K. L. Meyer, M. P. Carlson and N. R. Schneider	167	Hematology, blood chemistry and selenium values of captive pronghorn antelope, white-tailed deer and American bison
D. R. Varney, M. Ndefru, S. L. Jones, R. Newsome, M. R. Siegel and P. M. Zavos	171	The effect of feeding endophyte infected tall fescue seed on reproductive performance in female rats
Robert E. Thomas and Stanley D. Rice	177	Effect of water-soluble fraction of cook inlet crude oil on swimming performance and plasma cortisol in juvenile coho salmon (*Oncorhynchus kisutch*)
David Jorgensen and J. F. Heisinger	181	The effects of selenium on the distribution of mercury in the organs of the black bullhead (*Ictalurus melas*)
Y. Ozoe, K. Mochida, T. Nakamura, A. Yoyama and F. Matsumura	187	Actions of benzodiazepines on the housefly: binding to thorax/abdomen extracts and biological effects
Fredrik Ehrenström and Pehr Johansson	193	Circadian rhythms and contents of catechols in different brain structures, peripheral organs and plasma of the Atlantic cod, *Gadus morhua*
V. W. T. Wong and P. S. Rainbow	203	A low molecular weight Zn-binding ligand in the shore crab *Carcinus maenas*
Linda J. Gregory, M. B. A. Djamgoz and S. N. Irving	211	GABAergic inhibition of spontaneous activity in the central nervous system of an insect

B. Matkovics, H. Witas, T. Gabrielak and L. Szabó 217 Paraquat as an agent affecting antioxidant enzymes of common carp erythrocytes

Takeshi Suzuki, Jun-Ichiro Oka and Hideomi Fukuda 221 *In vitro* studies of the effects of naloxone on the root potentials in the frog spinal cord: enkephalin-like effect on the recurrent presynaptic inhibition

W. F. Jansen and J. H. B. Diederen 227 Functional differences between frog paraphysis cerebri and choroid plexuses with respect to uptake of tritiated noradrenaline *in vivo*

Erratum 231

Vol. 87C, *No.* 2

J. Mallefet and F. Baguet 233 Oxygen consumption and luminescence of *Maurolicus* photophores stimulated by adrenalin

Norio Inomata, Takafumi Ishihara and Norio Akaike 237 SUN 1165: a new antiarrhythmic Na current blocker in ventricular myocytes of guinea-pig

Kaye E. Fox and Nancy J. Russell 245 Pharmacokinetics of kanamycin in the bullfrog, *Rana catesbeiana*

G. Kling and R. Schipp 251 Effects of biogenic amines and related agonists and antagonists on the isolated heart of the common cuttlefish *Sepia officinalis* L.

D. B. Parker and B. A. McKeown 259 The effects of low pH on egg and alevin survival of kokanee and sockeye salmon, *Oncorhynchus nerka*

A. Waldenström, L.-E. Thornell, A. Hjalmarson and O. Poupa 269 Cardiotoxic effects of catecholamines in guinea-pig (*Cavia porcellus*) and in albino rat (*Rattus norvegicus*). A comparative study

Cecilia Toledo, Jerry Hendricks, Patricia Loveland, Jan Wilcox and George Bailey 275 Metabolism and DNA-binding *in vivo* of aflatoxin B_1 in medaka (*Oryzias latipes*)

Tom Piek, Bernard Hue, Marcel Pelhate and Luc Mony 283 The venom of the wasp *Campsomeris sexmaculata* (F.) blocks synaptic transmission in insect CNS

Tom Piek, Bernard Hue, Luc Mony, Terumi Nakajima, Marcel Pelhate and Tadashi Yasuhara 287 Block of synaptic transmission in insect CNS by toxins from the venom of the wasp *Megascolia flavifrons* (Fab.)

A. M. Hilmy, N. A. El Domiaty, A. Y. Daabees and H. A. Abdel Latife 297 Some physiological and biochemical indices of zinc toxicity in two freshwater fishes, *Clarias lazera* and *Tilapia zilli*

A. M. Hilmy, N. A. El Domiaty, A. Y. Daabees and F. I. Moussa 303 Short-term effects of mercury on survival, behaviour, bioaccumulation and ionic pattern in the catfish (*Clarias lazera*)

A. M. Hilmy, N. A. El Domiaty, A. Y. Daabees and A. Alsarha 309 The toxicity to *Clarias lazera* of copper and zinc applied jointly

P. H. Yu and B. D. Sloley 315 Some aspects on L-DOPA decarboxylase and *p*-tyrosine decarboxylase in the central nervous and peripheral tissues of the American cockroach *Periplaneta americana*

Giorgio Venturini 321 The hydra GSH receptor. Pharmacological and radioligand binding studies

M. Denac and E. Scharrer 325 Effect of neurotensin on the smooth muscle of the chicken crop

C. Junquera, M. J. Azanza, T. Castiella and C. Perez Castejón 329 Melanin storing cells in anuran gut

C. Junquera, M. J. Azanza, P. Parra, M. T. Peg and P. Garin	335	The autonomic innervation of *Rana ridibunda* intestine
K. A. Francesconi and J. S. Edmonds	345	The identification of arsenobetaine as the sole water-soluble arsenic constituent of the tail muscle of the western king prawn *Penaeus latisulcatus*
Lluís Tort, Pere Torres and Rosa Flos	349	Effects on dogfish haematology and liver composition after acute copper exposure
D. D. Dauble, R. M. Bean and D. W. Carlile	355	Uptake, distribution, and elimination of dietary quinoline by rainbow trout (*Salmo gairdneri*)
Xiao Ping Sun, Hiroshi Takeuchi, Yukio Okano and Yoshinori Nozawa	363	Effects of synthetic ω-conotoxin GVIA (ω-CgTX GVIA) on the membrane calcium current of an identifiable giant neurone, d-RPLN, of an African giant snail (*Achatina fulica* Férussac), measured under the voltage clamp condition
M. I. Picollo de Villar, E. Seccacini, A. Fontán and E. N. Zerba	367	Activity of the insect growth regulator fenoxycarb (RO-13-5223) on *Triatoma infestans* (*Hemiptera*)
M. J. J. Ronis, C. H. Walker and D. Peakall	375	Hepatic metabolism of cyclodiene insecticides by constitutive forms of cytochrome P-450 from lower vertebrates
Olga P. Yurchenko, N. G. Grigoriev, T. M. Turpaev, D. Konjević and L. Rakić	389	Intracellular injection of dopamine enhances acetylcholine responses of neuron R2 in the *Aplysia* abdominal ganglion
Paulo Pasquarelli, Erasmo G. Mendes and Paulo Sawaya	393	The action of parotoid venom on the heart of the toad (*Bufo ictericus ictericus* Spix 1824) and its effects on the inhibition caused by vagal stimulation
Toshio Yamaguchi, Akio Tsuru and Hiroshi Washio	401	L-Glutamate and potassium-induced contractures in denervated cockroach muscles
E. Kukiełka	409	Changes in the blood of Wistar rats in acute poisoning with ethanol and acetaldehyde
D. Osborn, M. P. Harris and W. J. Young	415	Relationships between tissue contaminant concentrations in a small sample of seabirds
R. R. Dalvi, Vic A. Nunn and Judith Juskevich	421	Studies on comparative drug metabolism by hepatic cytochrome P-450-containing microsomal enzymes in quail, ducks, geese, chickens, turkeys and rats
C. G. Acevedo and E. Contreras	425	Effects of morphine on adrenaline responses of uteri from progesterone or estradiol treated mice
J. P. Pennec	429	Effects of adrenaline on the isolated heart of the trout (*Salmo gairdneri* R.) before and after transfer from fresh water to sea water
Mar M. Almar, Javier Díaz-Mayans and Francisco J. Romero	433	Glutathione content and GSH *S*-transferase activity in midgut gland of *Procambarus clarkii*. Sex differences, the effect of fasting, and their implications in cadmium toxicity
James C. Bonner and Marion R. Wells	437	Comparative acute toxicity of DDT metabolites among American and European species of planarians
R. V. Smith and D. G. Satchell	439	Innervation of the lung of the Australian snake-necked tortoise, *Chelodina longicollis*
William J. Bettger, Douglas J. Spry, Kevin A. Cockell, C. Young Cho and John W. Hilton	445	The distribution of zinc and copper in plasma, erythrocytes and erythrocyte membranes of rainbow trout (*Salmo gairdneri*)
S. L. Ng and T. B. Ng	453	Corticotropin-like material in pigeon brains
